BULLOCK CREEK ROBOTICS

Our mission is to inspire students to become tomorrow's leaders and innovators through involvement in project-based learning that focuses on building skills in science, technology, business, and engineering, as well as fostering leadership, confidence, and stewardship.

Bullock Creek Robotics is an organization that funds robotics teams in grades 3 - 12 in the Bullock Creek School District. There are currently two *FIRST* Lego League (FLL), two *FIRST* Tech Challenge (FTC), and one *FIRST* Robotics Competition (FRC) teams.

Along with the *FIRST* Core Values of Discovery, Innovation, Impact, Inclusion, Teamwork, and Fun, the Bullock Creek Robotics Program builds better robots by building up people.

Each year, the Bullock Creek Robotics Program works to raise upwards of $50,000 to fund all levels of robotics within the Bullock Creek School District. The funds are then used to pay for expenses including team shirts, meals at competitions, event fees, travel costs, expenses related to fabricating the robot, and maintaining a functioning lab. Our team has the goal of including students from all socio-economic backgrounds without placing a financial burden on the family.

Communiity Stewards

The students of BlitzCreek volunteer upwards of 3,000 hours each year, fostering lasting bonds with the community and building better humans.

Tomorrow's Leaders

98% of BlitzCreek Alumni pursue post-secondary education.

Our following alumni received the *FIRST* Scholarship to Michigan Tech for $4,000 a year.

- Adam Jean
- Aerial VanAlstine
- Connor Stark

This endeavor will only succeed through partnerships with the community.
